DETAILED ACTION

- I. Rejection of claims 1-3 under 35 USC 103(a) as being anticipated by Alvira will not be maintained in light of amendment filed 1/5/07 for reason on record and reason as follows. Applicant argues that Alvira provides no description of actual separation of a racemic or mixture of equol into the R-equol and S-equol enantiomers and that Alvira does not disclose the presence of a solvent being combined with equol. Examiner acknowledges that Applicant claims are to the R-equol. However, Examiner also acknowledges that Applicant's claims employ "comprising" language, which allows for the inclusion of other components such as the S-equol. For this reason, the rejection of record is maintained. Also note instant claims do not require the presence of a solvent.
- II. Rejection of claims 4 and 5 under 35 USC 103(a) as being obvious over Alvira will be maintained in light of amendment filed 1/5/07. Claim 29 is added to this rejection. Applicant argues that there is no specific disclosure in Alvira of a technique that would result in the separation of R-equol and S-equol from a mixture. Examiner acknowledges that Applicant claims are to the R-equol. However, Examiner also acknowledges that Applicant's claims employ "comprising" language, which allows for the inclusion of other components such as the S-equol. For this reason, the rejection of record is maintained.
- III. Restriction Requirement / Status

The restriction requirement is final. Claim 29 is added to group I and claims 30-33 are added to group III. The restriction requirement set-forth on 10/05/06 is

Art Unit: 1616

maintained. In summary the restriction is maintained because a single reference may not read on groups set-forth in the restriction requirement. Also the search strategy differs amongst the restricted groups. The elected invention is not allowable. See arguments above.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
